“ *Nan and I grew up together. Our houses were behind each other. We were roommates and each other’s maid of honor. We talked on the phone all the time. I miss her every day!!* ❤️❤️

“ *My earliest memories of Nan were at our slumber parties in 6th grade. We would all wear our granny gowns and dance to Snoopy vs the Red Baron. Even at that young age we knew Nan was special. Always had a smile and excitement for just being with friends. My sincere condolences to Nans family and friends.*
