“ When we were young at the age of 12 and 11 Aunt Linda and mom bought me and Tony guitars and amps wasn't long before we were playing our first song smoke on the water. We thought we were really going to be superstars,we continued playing learning new songs although we never made the big time. I will never forget those jam sessions. I could not have had a better jam partner. One day we will play together again in heaven. Rip Tony love Rusty.

“ I will miss my brother dearly. He was the one I could talk to about things that other people wouldn't understand. We share the same birth month only five years apart. He used to tease me about Ancient Aliens because he thought I had a crush on the guy with the goofy hair. We enjoyed our conversations about deep subjects and the mysteries of life. He always took care of me no matter what. I remember in seventh grade I needed school clothes so he took My sister Terrie and Me shopping and made sure that we had what we needed for school. He was just a teenager himself, he did not have to do that. But he always looked after the people he loved even if it meant he went without something. He left us too soon. But as I say I guess Heaven needed another angel, and besides I know my mom is up there catching up with him as we speak. Until we meet again brother, thank you for loving me unconditionally and for being in my life. I love you so much and there will be an empty space in my life until we meet again.💔👼💔
